Subject: Letter to the Editors and Commissioners...

Dear Commissioners,

I've been wondering something.

Would you three liberally minded commissioners, please stop playing the role of dictators, and just do the job we hired you to do? And stop speaking for us? Specifically you, Carlotta.

We can and do speak for ourselves and it is obvious that you are not hearing us.

It is quite clear that your goal is to promptly zone our private property rights away, right from under our noses.

You need to know that we will do everything we need to do, to keep you from doing this *to* us. It certainly is not *for* us. You should be embarrassed and ashamed.

Carlotta, you say you don't see any point for a meeting that would pit community members against each other, and that there is no support for a measure allowing us to vote on zoning.

Do you ever see any of our points?

You need to acknowledge our numbers and the support there really is, for a measure allowing us to vote on zoning.

Carlotta, your comments makes no sense. Haven't you noticed that yourself? You don't, you know, lie, do you?

We Ravalli citizens do not agree with you and what you are trying to do to us.

We are *already together, and in agreement*, on the fact that we want no zoning, and that we want all Ravalli County citizens to vote regarding zoning. Nobody is ever heard saying they want you to make decisions for them. On zoning or anything else. They want to vote, of course.

Your goofy decisions lead to more government control and higher taxes, and need to be overturned. You should have jumped at the chance to let the builders pave 8 Mile.

5/28/2008

Ouch, there go my taxes rising up again.

My family and I want to know how many citizens called you and told you that they are FOR voting on zoning.

Commissioner Chilcott IS correct.

Voting on zoning IS the right thing to do.

Respectfully,

Cathy Kulonis
